

# IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In Re application of:

John GRIFFITS and Yvonne GRIFFITS

Group Art Unit: 2128

Examiner: RAO, Sheela S

For: **Garments that automatically disrobe in response to remote control means.**  
**Application Number 10/518,761**

## RESPONSE TO OFFICE ACTION SUMMARY MAILED 4TH JUNE 2007

MAIL STOP PCT  
Commissioner for Patents  
U.S. Patent & Trademark Office  
P.O. Box 1450  
Alexandria, VA 22313-1450

In response to you Office Action would you please Cancel Claims 1 through 49 and add new Claims 50 through 88 provided on the attached Claim Listing.

Please note that Claims 82 through 87 are equivalent to claims already granted by the UK Patent Office GB2407962. Claims 50 through 88 are equivalent to claims accepted by IP Australia. Both these derive from the same parent PCT as the present application.

The specification has also been amended to meet your previous objections and to better equate to the new claims.

A marked up copy of the specification with deletions struck through and additions underlined is attached. Comments in blue italics provide references to the relevant paragraph numbers in the original US Publication. The marked up specification retains the previous paragraph numbers for previously published paragraphs. The numbers are updated in the clean copy of the specification.

The required headings have been included and a new abstract provided. The Sequence Listing is not applicable.

The field of the invention and a description of the related art have been added.

A brief summary of the invention has been added to better clarify the invention as now claimed.

A brief description of the drawings is now included.

A clean copy of the new specification with renumbered paragraphs is attached.

Please be advised that no further prior art has been cited by the Australian and UK Offices other than that in the search report published with the original PCT Application.

A search report from the European Office has cited the GREEN Application U.S. Patent Application 20020042937 as an "A" Category document. This document was already disclosed in our original PCT Specification.

I trust that these changes meet with your approval and that the claim set now defines an invention that is acceptable to you.

Yours Sincerely

/John Philip GRIFFITS/  
John Philip GRIFFITS

Date September 30<sup>th</sup> 2008.
